

| Programming Parameter                 | Option 1   | Option 2     | Option 3     | Option 4 | Option 5 | Option 6 | Option 7 | Option 8 |
|---------------------------------------|------------|--------------|--------------|----------|----------|----------|----------|----------|
| 1. Aircraft Type                      | Fixed-wing | Helicopter   |              |          |          |          |          |          |
| 2. Brake Type                         | Disabled   | Normal       | Proportional | Reverse  |          |          |          |          |
| 3. Brake Force                        | 0          | 1            | 2            | 3        | 4        | 5        | 6        | 7        |
| 4. Voltage Cutoff Type                | Soft       | Hard         | Surge        |          |          |          |          |          |
| 5. Number of LiPo Cells               | Auto Calc. | 6S           | 8S           | 10S      | 12S      | 14S      |          |          |
| 6. Cutoff Voltage (per cell)          | Disabled   | 3.0V         | 3.2V         | 3.4V     | 3.6V     | 3.8V     |          |          |
| 7. BEC Voltage                        | 6.0V       | 7.4V         | 8.4V         |          |          |          |          |          |
| 8. Start-up Mode                      | Normal     | Soft         | Very Soft    |          |          |          |          |          |
| 9. Timing                             | Low (5°)   | Medium (15°) | High (30°)   |          |          |          |          |          |
| 10. Motor Rotation                    | CW         | CCW          |              |          |          |          |          |          |
| 11. Freewheel Mode                    | Enabled    | Disabled     |              |          |          |          |          |          |
| 12. Governor Gain                     | Level 1    | Level 2      | Level 3      |          |          |          |          |          |
| 13. AutoRestart Time                  | 0s         | 45s          | 90s          |          |          |          |          |          |
| 14. Restart Acceleration              | 1s         | 1.5s         | 2s           |          |          |          |          |          |
| 15. Thrust Reverse Channel Assignment | Ch5        | Ch6          | Ch7          | Ch8      | Ch9      |          |          |          |
